Everett, George.

Encouragement for seamen and mariners: in two parts. Being a proposed method for the more speedy and effectual furnishing Their Majesties' royal navy with able seamen and mariners: and for saving those immense sums of money, yearly expended in attending the sea-press. In order to prevent those many mischiefs and abuses daily committed, by disorderly press-masters, both at sea and land; to the great prejudice of Their Majesties, and injury of the subject. By George Everett, shipwright. London, 1695.
